

“Active Youth Today for Brighter Youth Tomorrow”

2026 Community of Diamonds Sponsorship

The Community of Diamonds Campaign offers you the opportunity to uplift and support a child, giving them a chance to shine. Giving the gift of philanthropy is a way to show support, encouragement, and empathy.

MISSION: To bridge the gap between youth with limited resources and the opportunity they need to succeed, providing access to higher education and health resources to empower them to pursue their aspirations with confidence and determination.

VISION: Every child will have the same access to school-based and afterschool activities to thrive in their future.

Diamond Donations

Every child is a diamond in the rough, and with the right opportunities and support, they can shine their brightest. Through our programs, we help polish these young gems by removing barriers that prevent participation.

Program support is used to assist families with activity registration fees and essential equipment needs, including sports gear, uniforms, and required accessories for activities such as sports, taekwondo, boxing, music classes, and other enrichment opportunities. Families are given the opportunity to request assistance, ensuring support is provided where it is most needed so every child can fully engage in their chosen sports and after-school activities.

\$1,000

\$2,500

\$5,000

Impactful Goals:

ACADEMIC IMPROVEMENT

Participation in extracurricular activities can enhance academic performance by promoting discipline, time management, and a positive attitude towards learning.

PHYSICAL HEALTH & WELL-BEING

Engaging in sports and physical activities helps improve physical fitness, reduce obesity rates, and promote overall health among youth. This can lead to reduced risk and a healthier lifestyle.

SOCIAL & EMOTIONAL DEVELOPMENT

Extracurricular activities offer opportunities for youth to develop social skills, build friendships and enhance their emotional well-being. Foster teamwork, leadership, and resilience.

CAREER & LIFE SKILLS

Involvement in diverse activities can help youth discover their interest and talents, leading to potential career paths. Skills such as leadership, communication and problem-solving.

FOUNDATION FUNDING NEEDS

Active Youth Fund Initiative- amount needed \$20,000

Our community is home to many talented and enthusiastic young individuals who greatly benefit from participating in after-school programs, such as sports, arts, and educational activities. These programs not only provide a safe and constructive environment for our youth but also foster personal growth, teamwork, and academic success. Unfortunately, many families in our community face financial challenges that make it difficult to afford the registration fees required for these programs. Without financial assistance, these children may miss out on valuable opportunities that could significantly impact their future. These contributions will help 100 youth cover these costs and ensure that these youth have the chance to participate, regardless of their financial situation.

STEM Kits- amount needed \$5,300

The purchase of hands-on STEM kits for youth participating in the Black Diamond Community Foundation's Active Youth Program. The kits are designed to make learning interactive, accessible, and engaging for children who may have limited access to educational enrichment outside of school.

The STEM kits will be used during Active Youth programming to reinforce the connection between physical activity, critical thinking, and academic success. Each kit encourages problem-solving, creativity, teamwork, and perseverance, skills that directly support classroom learning while keeping youth engaged in positive, structured activities.

By incorporating STEM into Active Youth program, we provide balanced enrichment that keeps youth mentally engaged alongside physical movement. This approach helps reinforce the importance of education while offering a productive alternative to idle time, screen dependency, and negative influences.

Building Fund- amount needed \$10,000

The Building Fund supports essential improvements to the Black Diamond Community Foundation facility that strengthen long-term program sustainability. The planned kitchen build-out will make the space more attractive and functional for rentals, helping generate earned revenue that offsets the cost of delivering free Active Youth programs. In addition, parking lot improvements, including the addition of gravel, will improve safety and accessibility for families, partners, and event attendees. These upgrades allow the facility to better support community use while creating a sustainable funding stream that helps reduce reliance on donations alone and ensures continued access to high-quality programming for youth.

Impactful Goals:

ACADEMIC IMPROVEMENT

Participation in extracurricular activities can enhance academic performance by promoting discipline, time management, and a positive attitude towards learning.

PHYSICAL HEALTH & WELL-BEING

Engaging in sports and physical activities helps improve physical fitness, reduce obesity rates, and promote overall health among youth. This can lead to reduced risk and a healthier lifestyle.
